## Fun times out and about with Lisa!

On Sunday, Lisa took a group to the Popcorn Factory in Port Clinton where we all sampled bacon & cheese, blueberry, rootbeer, toffee, cinnamon red hot and wild walleye popcorn. After that they made a stop at the outdoor market

and then the beach. It seemed that the trip was a wonderful time seeing as everyone came back with a big smile! A big thank you to Lisa, who took her time out to plan a great trip!

## Bus Trip to Rolling Ridge Ranch and Warthers Museum

Last week we had the pleasure of going to Rolling Ridge Ranch and Warthers Museum. Although we had a small group, man did we have a blast. Our first stop was the Ranch where we all got on a horse drawn wagon for a hour adventure through an eighty acre wilderness park. We got to feed and touch these animals almost like there was nothing between them and us. After that we went back down to the petting zoo where they had plenty of animals for the kids to hold and play with. After we were

finished at the Ranch we headed to Dover, where the Warther family reside. It showcases the 64 ebony, ivory and walnut train carvings created by Ernest "Mooney" Warther and is a one-of-a-kind collection that has been appraised by the Smithsonian Institution as a "priceless work of art." The original workshop, built in 1912 is still used by family members. Mooney's son David and grandson Mark, may be seen at times carving in the workshop or creating wooden pliers for visitors. This old shop is adorned with over 5,000 arrowheads. In the summer months stroll

through the Swiss-style flower gardens to Frieda Warther's Button house that holds a collection of over 73,000 buttons arranged in beautiful designs on the walls and ceiling. There is even a button from Mrs. Lincoln's inaugural dress and a collection of original Goodyear rubber buttons.

## TOMTOM scenic tour?!

While in Berlin, Oh on our trip to Rolling Ridge Ranch TOMTOM decided to take us on a scenic tour through some Amish back yards. We had accidently made a wrong turn but instead of Tom telling us to turn around, he told us to drive down a dirt

path just as wide as Lisa's valued Mountaineer that she wished Tim wasn't driving. This is a picture Brandy took before we started down the road! It was so cool but how the heck did Tomtom know it was there. Some people will be directed thru the campground

### Support Needed

I would like to ask everyone for support on my choice to quit smoking. It has been brought to my attention that I am not being a good role model for the campground as well as for all of the kids. I do not want to be a bad influence anymore. It is going to be a challenge for me as it is my "go to" stress reliever, but I feel it is the right thing to do.

Thank You -Brooke

Momma Duck has 6 little ducklings so now we can't wait for the Peafowl to hatch or whatever the Guinness's are sitting on

On the 7th day of Christmas my true love sent to me, seven swans a swimming... I mean walking!

Bio-Kleen Black streak remover **only \$15.90**

It is amazing

Lisa is the "sprinkles" on the Sundae of life!

Thanks Donna she needed that

### Garden of the week The Wiemels Family D12

Wednesday, July 13

5:00 S'more News

Friday, July 15
